- ❖ Conceptualizing and leading the integration of a globally harmonization Bio Sample Management solution.
- ❖ I was leading a team with 25 subject matter experts, 3 work streams and a project budget >4 million CHF across 5 countries. We applied the Scrum Framework with across all workstreams and partners.

08/19-05/2020

RELEASE PROJECT MANAGER FOR IDMP&MDA @ GLOBAL BIOTECH COMPANY, BASEL

- ❖ Introduction of harmonized master data model compliant to the IDMP standard.
- ❖ I was responsible to manage and steer the integration of the organizational functions Supply Chain and Regulatory Affairs systems together with business co-leads and enable the agile implementation based on Scrum.

10/2018-08/2020

PROJECT LEAD FOR GLOBAL VOICE @ GLOBAL PHARMACEUTICAL COMPANY, ZURICH

- ❖ Provision and standardization of a global, cloud-based collaboration system based on Cisco Hosted Collaboration Services (HCS).
- ❖ I was responsible to supply 40+ affiliates with a software-based telephony and collaboration platform by managing a core team of 15 subject matter experts plus a supporting vendor with 25+ network/telecommunications experts within my project budget responsibility of 9.8m CHF.

10/2017-05/2019

IT PROJECT LEAD FOR CLINICAL STUDY SOLUTION @ GLOBAL MEDTECH COMPANY, BASEL

- ❖ Co-lead of the regulated clinical study cloud migration and integration while maintaining business continuity and GxP within the R&D solution portfolio. Introducing Scrum as an early adopter project including CSV activities. Managing a team of 9 people and a solution provider.

09/2014-09/2017

IT INTEGRATION MANAGER @ GLOBAL CAR MANUFACTURER BANK, STUTTGART

- ❖ While a billion Euro program was initiated to setup a new IT landscape for the financial services of a global car manufacturer.
- ❖ I led the IT Integrations Team to enable a TOGAF based implementation of the new architecture. I reported into the program leadership and led a team of 5 integration consultants.

10/2011-09/2014

PROJECT LEAD FOR ADDRESS BOOK VALIDATION @ GLOBAL ENGINEERING COMPANY, BIELEFELD

- ❖ Due to wrong shipments and high transportation costs the top management of a global engineering company decided to setup a project to validate order address information during order entry process.
- ❖ I was given the ownership to evaluate a software, that validates address information, guarantee lowest possible transportation costs and to avoid wrong shipments. I oversaw the project and reported progress to project steering committee, steered internal development and external suppliers, managed requirements, and testing. Also, I managed the rollout and enabled user to adopt.
